Operation:

Gather writers' status
 Executing Asynchronous Operation

Context:

Current State: GatherWriterStatus

Error-specific details:

Error: NetLocalGroupGetMemebers(Users), 0x80070560, The specified local group does not exist.

Solution

To ensure success, a valid account must be specified for the VSSAccessControl registry key.

1. Open the **registry editor**.
2. In the **Registry Editor** navigate to **HKEY_LOCAL_MACHINE\SYSTEM\CurrentControlSet\Services\VSS\VssAccessControl**
3. Delete the **DWORD** value that corresponds to the account name in the events.
4. Reboot the machine
