

Removing your License key when Upgrading your PC

This article covers the procedure for removing a purchased license key from one computer so it can be transferred to another computer, such as when a computer is replaced due to upgrading your computer or so it can be restored to the same computer after a major upgrade.

Please note that a separate license key is required on each computer on which Macrium Reflect is installed. The transfer of a license key from one computer to another is only allowed for legitimate upgrade/replacement purposes.

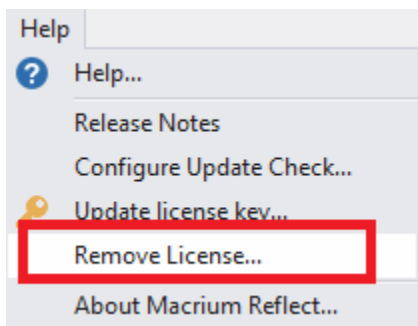

1. Make sure you have a record of your license key:

Your license key was sent by e-mail when you originally purchased. Your license key can also be found in the **'Help'** menu of Macrium Reflect by selecting **'About Macrium Reflect...'**:

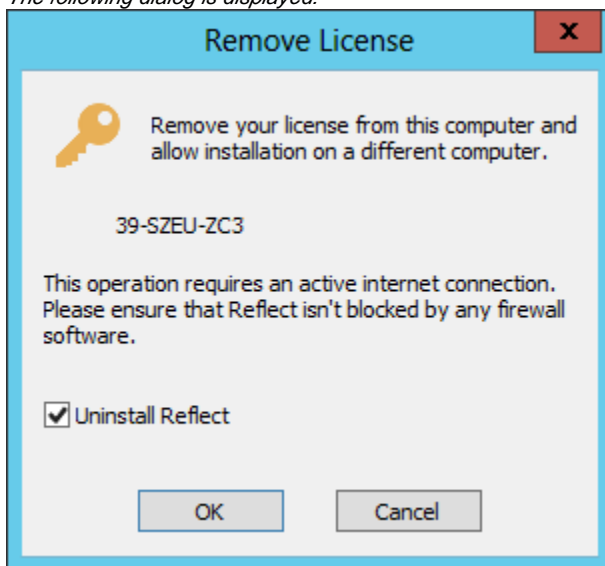

Lost keys can also be retrieved here:<http://www.macrium.com/account/myorders.aspx>

2. Remove your license key and uninstall Macrium Reflect:

Open Macrium Reflect in your old computer and making sure it is connected to the Internet, then in the **'Help'** menu select **'Remove License...'**:

The following dialog is displayed:

Ensure there is a tick against **'Uninstall Reflect'** and click **'OK'**. Macrium Reflect will uninstall and your license key will be removed making it available to be used on your replacement computer or original computer after a major upgrade.

More information:

You can download installers and license keys by entering your email address here:<http://www.macrium.com/account/myorders.aspx>

You should create a new Windows PE rescue CD on your new hardware.
