How to configure the ReflectMonitor hot key

ReflectMonitor is a small utility that provides backup notifications and progress for scheduled backups.

When a scheduled backup starts an icon will appear in the Task Bar notification area:

If you double click the icon or right click and select 'Show' the backup progress dialog is shown:

Accessing ReflectMonitor with a Hot Key

Alternatively, the backup progress can be shown at any time by **pressing the 'Hot Key' combination Ctr+Alt+M**. If a backup isn't currently running then the status of the last backup run in the current Windows session will be show.

To enable/disable the Hotkey or change the letter from 'M'

In the ReflectMonitor dialog select 'File' > 'Configure Hotkey...'
