

Retrieving saved XML backup definition

Macrium Reflect saves backup configurations using XML. Using an XML Definition you can schedule a backup, generate a VBScript file for complex scenarios or simply create a desktop shortcut so you can instantly run your backup by clicking the shortcut icon.

1. Select **Backup Definition Files**, to view your saved XML backup configurations.

2. Right click on the XML file to view options including; run the backup, scheduling or creating a desktop shortcut.
